

Did you know that-?

1. Did you know that- giving both a COVID-19 vaccine and the flu vaccine at the same time was tested in clinical trials this year?
2. Did you know that- There is evidence to suggest that for certain groups, such as older people and those with health conditions, the immunity from COVID-19 vaccines starts to decrease after six months?
3. Did you know that- The groups who can have the booster are the same groups who had their Covid-19 vaccination during phase one?

This includes

- Elderly residents of care homes?
 - People over 50?
 - Frontline health and social care workers
 - People aged 16-49 with underlying health conditions
4. Did you know that- you could be entitled for financial support if you meet certain criteria such as having a positive PCR Test and need to take time off work? You will need to provide the 8-digit code that is provided by NHS Test & Trace when you test positive, or identified as a close contact? Call the Council helpline on 0207-364-3030
 5. Did you know that- COVID-19 booster jabs are now available for vulnerable and elderly residents since September 2021?
 6. Did you know that- the vaccine will not affect your fertility, and it is safe to take while pregnant or breast feeding?
 7. Did you know that- you can book your COVID-19 vaccine today?
 8. Did you know that- most Countries now require proof of vaccination to travel, so the sooner you get vaccinated; the easier it will be to go abroad.
 9. Did you know that there is no Covid-19 in the vaccine?
 10. Did you know that since 11th November 2021, most Care Homes in England now require proof of vaccination before employing Care Workers?
